EDUCATION

Bucknell University | B.S. Mechanical Engineering, expected May 2028

Minors: Mathematics and Business Analytics

Relevant coursework: Dynamics, Fluid Dynamics, Thermodynamics, Manufacturing Processes, Foundations in Aircraft Design, Differential Equations, Probability and Statistics

TECHNICAL SKILLS

SOLIDWORKS (CSWA) • Structural simulation • MATLAB • Python • Java • Carpentry • Microsoft Office

ENGINEERING PROJECTS

Outdoor Landmark Chair | Independent design and fabrication

- Designed an oversized outdoor chair in SOLIDWORKS and performed structural simulation; anticipated strenuous use with a braced frame and durable material selection.
- Independently cut, assembled, and finished the chair in two days with an approximately $1,000 budget; seats four to five people and remains in fraternity use.

Autonomous Underwater Vehicle | Fluid Dynamics project, Fall 2026 — in progress

- Developed a symmetric 1.10 m hull concept for confined navigation, balancing hydrodynamic efficiency, equipment space, and low-speed maneuverability.
- Completed the individual literature review, hydrostatics and buoyancy calculations, and qualitative flow prediction; continuing into the team phase through Fall 2026.

Backyard Ski Jump | Independent personal project, March 2020

- Built a working ski feature in approximately two days; tested and modified jump angle, approach speed, and access to support skiing without snow.

LEADERSHIP AND SERVICE

Infrastructure and Social Chair | Sigma Phi Epsilon, Bucknell University

- Designed and constructed modular risers, seating, and stages; planned events for 100+ attendees, coordinating logistics, vendors, and member participation.

Teaching and Mentoring Assistant | LEAP for Education, Summers 2022 and 2023

- Supported students through seasonal educational outreach and mentoring.

WORK EXPERIENCE

Bartender | The Nantucket Hotel & Resort, Nantucket, MA | 2026

- Delivered high-volume service across the bar, pool, guest rooms, and restaurant; prepared and organized service stations for weddings and special events.

Bartender | The Landing, Marblehead, MA | 2022–2025

- Managed service for 13 bar seats and three high-top tables while coordinating food and drink orders, preparation, and restaurant-wide support.

ACTIVITIES

Club Ultimate Frisbee Founder • Skiing, Cycling, Hiking • Completed an indoor 70.3-mile triathlon and raised $500+ for men’s mental health awareness • Avid New England Patriots Fan
